नमस्ते लड़कियों!

Hello Girls!

RE-pair (Session Nov 2015), Govt. Girls Senior Secondary School No.1 Speakers: Simmi Mourya, Priya Dhoundiyal

एक समस्या के बारे में सोचते हैं

Let’s think about a day-to-day problem
that can be fixed using technology

अब इसके समाधान के बारे में सोचते हैं

Let’s think about potential solutions

Break-out sessions
for brainstorming
(picture from Re-pair
2015 session)

www.technovationchallenge.org

TEAM CHARIS

Country: Nigeria

Age: 15-17

Problem: Improper waste disposal

Solution: A mobile application

अब फिर से उसी समस्या का समाधान ढूंढ़ते है मगर इस बार तकनीक की मदद लेकर

Let’s think about a solution for the same problem. Now we will think further and try to solve it with the help of technology

What tools will you need to make
that idea possible?

- Hardware
- Software
- Funding …

मेरे पास बताने के लिए एक छोटा सा रहस्य है| जानना चाहोगे?

I have a little secret to share. Want to know?

Indian high school winners from programming competitions:

Homework ☺
e-mail us

simmimourya@outlook.com

dhoundiyalpriya@gmail.com

Name of the teams.
The problem they solved.
Their app ideas.
What do you think about their ideas?

Interactive App-building session

Let’s build something.

आओ कुछ बनाते है

Let’s connect both the sessions.

every technical (software) solution begins with programming:
Programming Session: MIT Scratch

हम यहाँ क्यों आये हैं?

Why are we here?

This field is still being explored. We really need brilliant minds like you come and join us to solve world’s biggest problems.

Questions?

Thank you!
You are awesome!

Re-pair 2014 session
(focus on technology start-ups, co-speaker: Nitin K)

Re-pair 2015 session
(focus on programming and software building)

Re-pair 2023 session
(focus on higher education)
